THIS POSITION IS OUTSIDE THE COMPETITIVE CIVIL SERVICE

Appointment to this position will be made under the Excepted Authority of the NSF Act. Candidates who do not have civil service status or reinstatement eligibility will not obtain civil service status if selected. Candidates currently in the competitive service will be required to waive competitive civil service rights if selected. Usual civil service benefits (retirement, health benefits, life insurance) are applicable for appointments of more than one year. Disabled veterans with 30% service-connected disabilities as well as other applicants with severe disabilities will be considered without regard to the closing date if applications are received prior to final selection.

DUTIES AND RESPONSIBILITIES: This position is that of Survey Statistician in the Division of Science Resource Statistics (SRS). SRS has as its prime objective the development of factual and analytical information on science and engineering resources. This includes data collections, surveys, and special studies on the education of scientists and engineers, the scientific and engineering workforce, and the financial and physical resources related to the U.S. research and development enterprise. SRS accomplishes its work using both in-house staff and contracts for data collections, surveys, methodological development, data dissemination and analytical activities. The duties of the position include the following:

- Uses sophisticated principles of survey methodology, statistics, economics and/or other social science disciplines to design, conduct, and analyze complex national surveys.
- Directs operational and technical aspects of a survey, including sample design, questionnaire design, statistical imputation and analysis, maintenance of data quality, preparation of analytical reports, data base construction and documentation and delivery of products on schedule and within budget.

- Develops contracts and interagency funding agreements as needed to achieve desired objective of assigned survey.
- Manages projects after award and serves as Contracting Officer's Technical Representative assuring that project objectives are met and quality standards are maintained within the project schedule and budget.

QUALIFICATIONS REQUIRED Applicants must have a master's degree in mathematics or statistics or social science plus a minimum of two years of research experience, research administration, and/or managerial experience pertinent to the position; or a Ph.D. in mathematics or statistics or social science; or equivalent research experience.

QUALITY RANKING FACTORS:

1. Ability to conduct surveys, data collections, and special studies from the planning and design stage to final analysis.
2. Ability to plan, administer, and evaluate a statistical survey program.
3. Ability to develop and maintain time schedules, project management systems, and financial and budget information for survey, analytical project, or major program of a project.
4. Ability to carry out contract oversight in survey (or other major studies) design, planning and implementation.
5. Ability to analyze complex survey data for publication in statistical or analytical reports for the general public, and to use oral communication skills to translate technical statistical material in language understandable to the public.

BASIS FOR RATING: Final ranking is based on an evaluation of your experience, education and training as they relate to the knowledge, skills and abilities specified in the Quality Ranking Factors. Current performance appraisal, letter(s) of recommendation, and awards may also be used in the evaluation process.

CONDITIONS OF EMPLOYMENT: Appointment to the position is contingent upon successful completion of the appropriate background investigation. Satisfactory completion of a one-year trial period may also be required.

HOW TO APPLY: You may apply for this position with the *Optional Application for Federal Employment* (OF-612), the older *Application for Federal Employment* (SF-171), a resume, or other application format of your choice - so long as it contains the necessary information (summarized below). You must also submit a current Performance Appraisal or letter(s) of recommendation from professionals who can comment on your capabilities. In order to ensure full consideration, it is recommended that you submit a supplemental statement which specifically addresses how your background and experience relate to each Quality Ranking Factor listed on this announcement.

You must specify the job announcement number, and title and grade(s) of the job for which you are applying. You should also provide the following information: ♦ Your country of citizenship. ♦ Your social security number. ♦ Information about your education, including (1) high school graduation date and (2) college/university information - your major, and type and year of degree(s). If no degree, show total credits earned and indicate whether they are semester or quarter hours. ♦ Information about all your work experience related to this job, including job titles, duties and accomplishments, employer's name and phone number, number of hours worked per week, starting and ending dates (month and year), and annual salary. If you held

various positions with the same employer, describe each separately. ♦ If you have Federal civilian experience, indicate the highest grade held, the job series, and dates held. ♦ The brochure *Applying for a Federal Job* provides information on the Federal job application process; it is available by calling the number listed below. **If your application does not provide all the information requested in the vacancy announcement, you may lose consideration for this job.**

The National Science Foundation provides reasonable accommodations to applicants with disabilities on a case-by-case basis. If you need a reasonable accommodation for any part of the application and hiring process, please notify the point of contact listed on this vacancy announcement.
